- c) The agency's report shall be approved by the agency head and made readily available to the public through its website or, if it does not have one, through other means.
- d) The agency may redact specific material from the reports when publication would present a clear and specific threat to the safety and security of a facility, but must indicate the nature of the material redacted.

The Sacramento County Main Jail continues to modify and improve the way it handles PREA education, complaints and investigations. During 2016, the Main Jail underwent a full PREA Compliance audit by a certified Auditor. As a result, many changes were made to policy and procedures to further improve the way sexual assaults are detected and investigated. Additionally, the Main Jail enacted measures to further improve inmate education and privacy.

In 2016, there were a total of 34 reports filed by inmates at the Main Jail complaining of sexual abuse that fall within the scope of PREA, as detailed below:

Per PREA §115.5 definitions of dispositions are:

- *Substantiated allegation*: means an allegation that was investigated and determined to have occurred.
- *Unsubstantiated allegation*: means an allegation that was investigated and the investigation produced insufficient evidence to make a final determination as to whether or not the event occurred.
- *Unfounded allegation*: means an allegation that was investigated and determined not to have occurred.

In comparison to last year's data, there was a significant increase in reports meeting the criteria set forth by PREA. In 2015 there were eleven reports of sexual abuse meeting the criteria set forth in PREA, compared with thirty-four in 2016. Of the thirty-four cases reported three were reported to staff as having occurred at locations outside the facility. Of the remaining thirty-one, two were substantiated and referred for prosecution, fifteen were unfounded, and fourteen were unsubstantiated. The increase in reporting can be attributed to several factors including a broader definition of reports classified as PREA and increased inmate education about reporting. Additionally, new procedures were implemented to improve trust between inmates and staff, allowing inmates to come forward without fear of retaliation.

After reviewing all reports, it is concluded that all cases were investigated properly and in accordance with the Sacramento County Sheriff's Department's policy and the PREA rule.

Note: To ensure the safety and security of this facility information identifying victims or suspects and specific locations within the facility has been redacted from this report (PREA Standard 115.88(d)).
